If you are organising anything and would like it to be listed here, please contact David Faulkner at least one month in advance.

Superfast broadband in Caynham

Join us on 7th March 2018 at 7pm

Airband are looking to roll out fibre to the premise broadband to the centre of Caynham, but need residents interest and support to do so.

We'd love for you to come along to a meeting that will be held by Airband at **Caynham Village Hall** on **Wednesday 7th March 2018 at 7pm** to explain and discuss the project and what's on offer and answer any questions residents may have.

If this proposal goes ahead our internet access will be improved enormously. Please come to the meeting to show your support – the more of us there are, the more likely it is that the scheme will be implemented.

Caynham defibrillator update

You may recall that Caynham Parish Council adopted the old BT telephone kiosk last year. After discussions with the Community Heartbeat Trust, the adoption has been transferred to them and the Council have agreed to fund the installation and ongoing maintenance of a defibrillator unit to be housed in the kiosk.

Ken Lloyd, who has championed this project from the outset, brings us up to date:

'The defib unit was fitted on Thursday 22nd February and will be registered with the ambulance service soon – once this is done it can be used in an emergency. We will be having a meeting with professional trainers who will explain how to use the equipment and answer any questions you may have (date and venue to be arranged). Please come along – don't be afraid of it, you can only **save a life.**'

For further information please contact Ken on 01584 878415.
